

### THE MAIN OBJECTIVES ARE:

Create a festival street from Biscayne Boulevard to NW 1 Avenue by raising the road to the same grade as the sidewalks, changing it to a curbless street, and adding pavers in the vehicular travel lanes. The goal is to deliver an enriched pedestrian experience with expanded sidewalks, outdoor dining, improved lighting, signage, public art and seating areas to improve the quality of life through a safer and more attractive shared space.

### CONSTRUCTION PROJECT PROCESS: **SOON TO START SECTION D!**

- Construction is divided into five (5) sections to retain maximum business activity.
- Construction began in 2021 and is estimated to be completed in 2024. The overall project work will be performed sequentially with minor overlaps, and it will move forward from East to West, starting on Biscayne Boulevard:
- **Section A** - Biscayne Boulevard to East 3rd Avenue. **(Construction completed)**
- **Section B** - East 3rd Avenue to East 2nd Avenue. **(Construction completed)**
- **Section C** - East 2nd Avenue to East 1st Avenue. **(Work in progress)**
- **Section D** - East 1st Avenue to Miami Avenue. **(Work to start by late July/early August 2022)**
- **Section E** - Miami Avenue to NW 1st Avenue, including NW Miami Court.

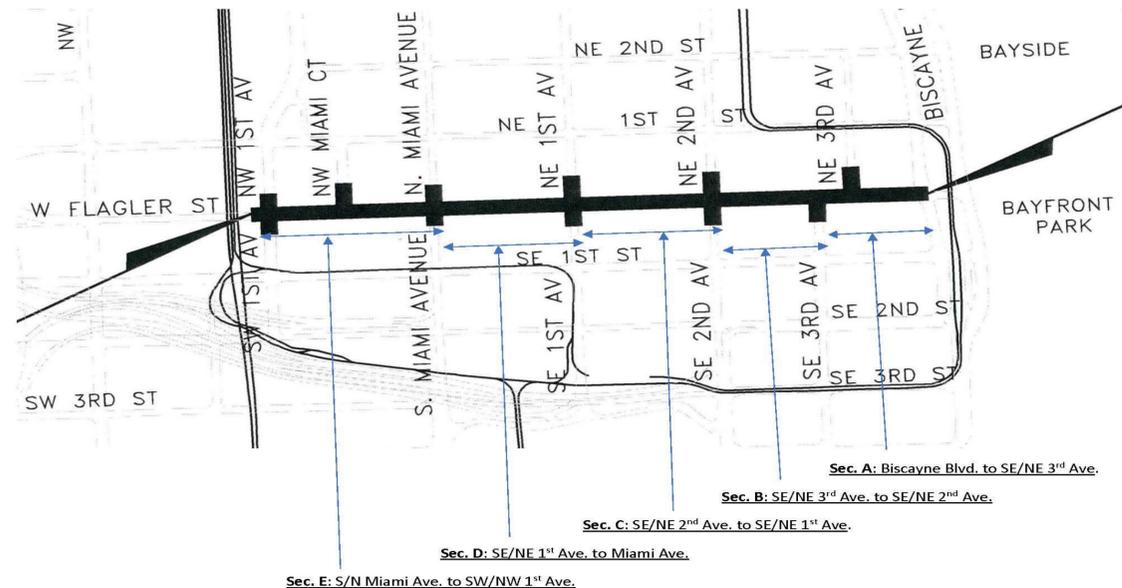

While East-West bound traffic will be detoured North to NE 1st Street and South to SE 1st Street, North-South bound traffic will be maintained for the most part. (MOT detour plans will be available once project construction starts).

### WHAT IS THE DOWNTOWN FLAGLER STREET BEAUTIFICATION PROJECT?

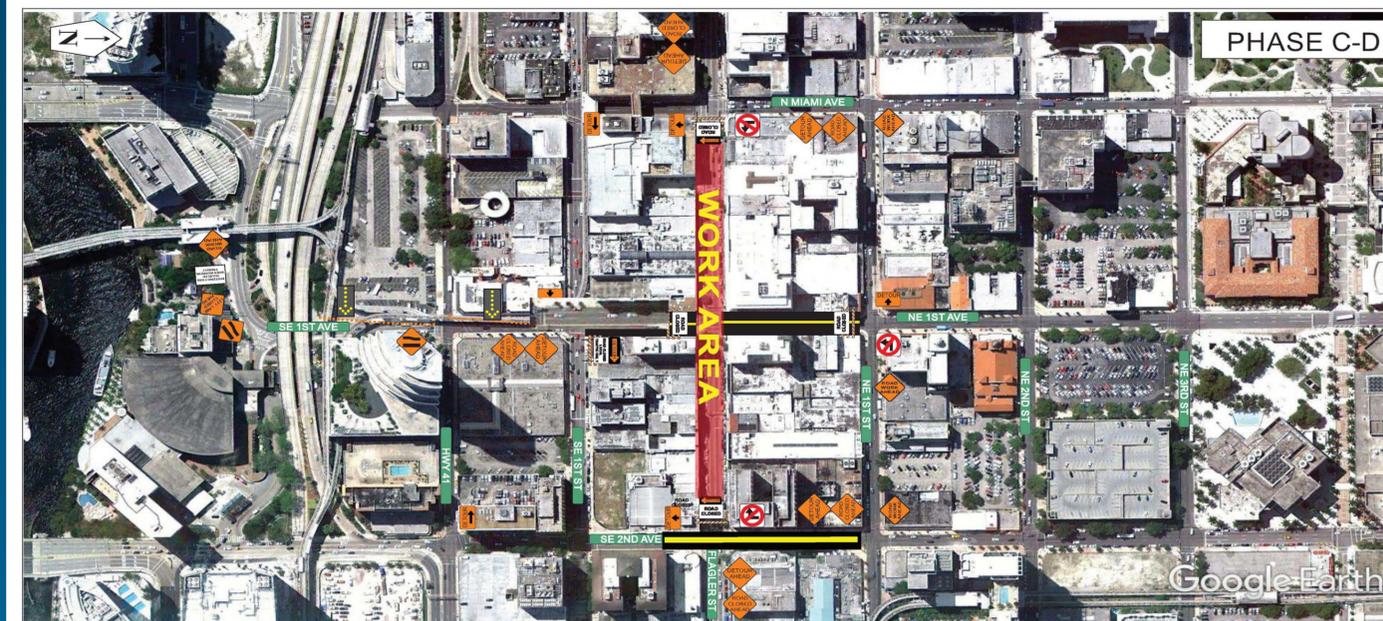

The City of Miami, in partnership with the Flagler District BID and the Miami Downtown Development Authority (Miami DDA), is working to transform Flagler Street into an iconic, festival-style boulevard to enhance its operations and activities.
